Headquarter of SAMOA-HALLBAUER GmbH in Viernheim.

Terms of Payment & Delivery

1. General

All agreements and offers are based on the following conditions.

They are recognised when the order is placed and have priority over any existing purchasing conditions of the buyer. Verbal side agreements are only effective if they are confirmed in writing. Our installation conditions also apply to installation services.

2. Offers & Orders

Our offers are non-binding unless otherwise agreed in writing. Orders and agreements of any kind only become legally effective with our written confirmation. With regard to technical developments, we reserve the right to make changes to models and drawings as well as deviations from catalogue information and images. We reserve the right of ownership and copyrights to the documents, drawings and illustrations belonging to the offer. They must not be made accessible to third parties. This requires our express approval in writing. The contractually owed properties of the purchased item are based exclusively on our product description and the written agreements. Ideas unilaterally expressed by the buyer are also disregarded, as are advertising statements and other public statements by us or one of our assistants. Models, tools and other equipment for the execution of an order always remain our property, even if we charge a share of the costs.

3. Prices

Our prices are ex-works, excluding packaging. Packaging is charged separately and is only disposed of if the goods are returned carriage paid. We reserve the right to adjust prices to the material prices and collective wages applicable on the day of delivery.

4. Delivery

Delivery dates are to be regarded as approximate times. Delivery times confirmed in writing only apply from the complete clarification of the order and not before the documents, permits and releases to be provided by us have been provided. The delivery time is met if the delivery item has left the works by the time it expires or - in the case of delivery ex-works - notification of its readiness for dispatch has been issued. Compliance with the delivery time requires the purchaser to meet the advance payments owed. Events that are beyond our control, such as force majeure, strikes, lockouts, disruptions in operation, assembly hindrances, insufficient supply of raw materials and other supplies entitle us to choose between appropriately extending the delivery time or withdrawing from the contract without resulting in the buyer being entitled to make claims against us. We reserve the right to make partial deliveries. The contract obliges the buyer to purchase the full quantities of goods. Excess or short deliveries of up to 10% of the order quantity, especially in the case of custom-made products, do not give rise to any rights of delay or withdrawal.

5. Packaging, dispatch, transfer of risk, packaging type, dispatch type and dispatch route are determined by us, unless a separate agreement has been made. Delivery is ex-works, unless otherwise agreed. The risk passes to the buyer as soon as the shipment has left our factory. If the dispatch is delayed for reasons for which we are not responsible, the risk is transferred to the buyer on the day of readiness for dispatch.

6. Payment & Late Payment

Our invoices are payable strictly net within 30 days of the invoice date. Repair invoices are to be paid immediately, strictly net, without deduction. The minimum order value is € 50, orders below this value are billed at a flat rate of € 50. If billing and payment have been agreed in a foreign currency, the following currency adjustment clause applies: if the ratio of the foreign currency to the € deteriorates by more than 2% between the submission of the offer and billing, we are entitled to convert the offer amount into € at the rate applicable at the time of the offer. The invoice is issued on the basis of the prices determined in this way, which the buyer then has to pay in foreign currency at the rate that applies at the time of payment. We reserve the right to use the following payment method for assembly orders and large orders:

- 30% after order confirmation
- 30% net after delivery
- 30% net after installation
- 30% net after acceptance.

If there are changes in the buyer's financial circumstances after the conclusion of the contract or if we become aware of changes after the conclusion of the contract that place the credit at apparent risk, e.g. in the event of suspension of payments, protest of bills of exchange, legal action against the buyer due to non-payment of due claims, we are entitled, regardless of the previously agreed terms of payment, to demand collateral or immediate cash payment for goods already delivered. If the buyer does not comply with our request for collateral or cash payment, we are entitled to withdraw from the contract and to request the return of any goods that have already been delivered. If the buyer does not meet the agreed payment deadline, we will charge interest at the statutory rate from the due date. We reserve the right to claim damages in the event of default in payment. We are not obliged to make any further delivery before payment of the amounts due, unless the buyer provides collateral for this. If the seller fails to make a due payment, all of our outstanding invoices are due immediately.

7. Retention of Title

The delivered goods remain our property until they have been paid for in full. The broader and extended retention of title applies. The buyer shall properly store and insure the goods. If the buyer is more than 10 working days late with due payments, the buyer is obliged to surrender the delivered goods at our

request without us having to declare our withdrawal from the contract beforehand.

The goods may neither be pledged nor assigned by way of collateral until they have been paid for in full without our written consent. In the event of seizure or confiscation by third parties, the buyer must inform us immediately. The buyer shall bear the costs of a third party right of objection. The buyer carries out any treatment or processing on our behalf. If the goods delivered by us are combined, processed or mixed with other items that do not belong to us, we shall have co-ownership of the new items in the ratio of the value of our reserved goods to the value of the other processed items. If the buyer sells the goods delivered by us, he hereby assigns his claims against his customers with all ancillary rights to us until all our claims have been paid in full. If the buyer acts in breach of contract, in particular in the event of default in payment, we are entitled to seize them after sending a reminder and the buyer is obliged to surrender them.

8. Guarantee

Insofar as the defects are not insignificant, we grant rights for defects in the delivery in accordance with the following paragraphs and number 9. All further claims for defects in the delivery are excluded. If our products show demonstrable defects within 12 months of delivery, we shall, at our discretion, provide supplementary performance by removing the defect or delivering a defect-free item or crediting the invoice value. In the event of supplementary performance, we will assume the necessary transport, travel, labour and material costs to a reasonable extent, but at most up to the value of the product in question. Additional expenses resulting from the fact that the item has been moved to a location other than that of the branch to which the delivery was made will not be assumed unless the seller was aware that this corresponds to the intended use. Rectification of the defect is carried out at our discretion by our own employees or by a company commissioned by us. Costs for repair work by third parties that have been commissioned by the buyer without our express consent will not be reimbursed. The guarantee assumes that the goods have been handled properly, that no parts of foreign origin have been used and that the buyer or third parties have not intervened. No guarantee is given for damage caused by the effects of the weather, damages of chemical or electrical nature or other extraordinary natural influences. This also applies to incorrect or insufficient information on the intended operating conditions, such as the medium, contamination of the medium, temperature and pressure. We do not accept any liability for normal wear and tear, in particular for wearing parts. Changes caused by the buyer during assembly, even if they are made by our fitters, release us from this guarantee, as does any non-compliance with contractual and payment obligations. For items produced by sub-suppliers that have been used by us, we hereby assign our guarantee claims to the buyer thereby releasing ourselves, unless these are not enforceable. The guarantee provisions apply accordingly to replacement parts. Further rights, in particular claims for compensation for damage that did not occur to the delivery item itself, are excluded. Notices of defects within the above-mentioned framework will only be recognised if they are issued in writing within one week of receipt of the goods or, in the case of defects that are initially not recognisable, immediately after becoming aware of them. Complaints concerning quantity will only be considered if they are submitted in writing immediately after receipt of the shipment. The inspection and notification obligation also includes operating and assembly instructions. If we are required to deliver based on samples, drawings or models provided by the buyer, the buyer guarantees that the items manufactured according to his templates do not infringe the industrial property rights of third parties. If a third party prohibits us from manufacturing or delivering the items on the basis of a property right belonging to it, we are entitled, without being obliged to examine the legal situation, to cease manufacturing or delivery and to demand reimbursement of the costs incurred. If we suffer damage in such a case from the infringement or the assertion of a property right by third parties, the buyer shall pay compensation for this or indemnify us from any damage resulting thereof. Returns require our prior consent.

9. Other Claims

We are only liable for claims for damages from positive breach of contract, from culpa in contrahendo as well as from unlawful acts, if the damage is based on intent or gross negligence. This also applies if the damage was caused by our vicarious agents.

10. Acceptance, Retrieval, Right of Withdrawal

Goods purchased for call-off must be accepted within one month of being requested to do so. If the buyer is in default of acceptance, we can store the goods at the buyer's expense and risk and invoice all costs arising thereof. The same applies if goods that are ready for dispatch cannot be dispatched due to circumstances for which the buyer is responsible. If the buyer is still in default of acceptance despite the setting of a deadline, if he is more than 30 days behind with a due payment, or if the buyer commits another serious breach of contract, we are entitled to withdraw from the contract and to claim damages.

11. Partial Ineffectiveness

Should a provision of these delivery and payment conditions or a provision of the sales contract be ineffective, the remaining provisions shall remain in effect.

12. The place of performance and jurisdiction for delivery and payment is

Viernheim in Hesse. The place of jurisdiction is Lambertheim in Hesse. However, we are entitled to file legal proceedings against the buyer at his registered office. German law applies to the entire legal relationship with the buyer. In addition to the General Terms and Conditions, the German Commercial (HGB) & Civil (BGB) Code applies.
